

### REMARKS

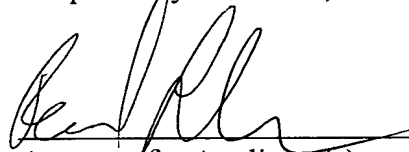

Claims 5, 6, 9 and 10 were rejected under 35 USC 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regard as the invention. Claims 8-10 were rejected under 35 USC 103(a) as being unpatentable over Hatwar et al (US 6,692,846).

By this amendment, claim 8 has been amended to recite semitransparent and opaque electrodes so that the stabilized OLED device forms a microcavity that emits blue light. The Examiner has indicated that this feature is unobvious. The informalities in claims 5 and 6 have been corrected to overcome the rejection under 35 USC 112. The changes to claim 8 now make claims 9 and 10 clear and definite.

It is believed that these changes now make the claims clear and definite and, if there are any problems with these changes, Applicants' attorney would appreciate a telephone call.

Claims 1-4 and 7 were indicated to be allowable. Accordingly, this application is believed to be in condition for allowance, the notice of which is respectfully requested.

Respectfully submitted,

Attorney for Applicant(s)
